

Government Regulation N. 522 of 7 December 2005 Establishing the List of Classified Information

Legal disclaimer

The following text is a translation of the original promulgated in the Czech language in the Collection of Laws. This translated version has been effected by the National Security Authority of the Czech Republic and cannot be relied upon as an authentic wording, nor causes any legal effect. Any liability of the author is hereby excluded.

The Government orders the following according to S. 139 par. 1 of the Act N. 412/2005 Coll., on the Protection of Classified Information (hereinafter “the Act”):

Section 1

(1) This Regulation shall establish the following

- a) the general part of the list of classified information in Annex 1;
 - b) the list of classified information within the responsibility of the Ministry of Transport in Annex 2;
 - c) the list of classified information within the responsibility of the Ministry of Finance in Annex 3;
 - d) the list of classified information within the responsibility of the Ministry of Informatics in Annex 4;
 - e) the list of classified information within the responsibility of the Ministry of Culture in Annex 5;
 - f) the list of classified information within the responsibility of the Ministry of Defence in Annex 6;
 - g) the list of classified information within the responsibility of the Ministry of Industry and Commerce in Annex 7;
 - h) the list of classified information within the responsibility of the Ministry of Justice in Annex 8;
 - i) the list of classified information within the responsibility of the Ministry of the Interior in Annex 9;
 - j) the list of classified information within the responsibility of the Ministry of Foreign Affairs in Annex 10;
 - k) the list of classified information within the responsibility of the Ministry of Agriculture in Annex 11;
 - l) the list of classified information within the responsibility of the Czech National Bank in Annex 12;
 - m) the list of classified information within the responsibility of the Czech Telecommunication Office in Annex 13;
 - n) the list of classified information within the responsibility of the Office of the President of the Republic in Annex 14;
 - o) the list of classified information within the responsibility of the Czech Securities Commission in Annex 15;
 - p) the list of classified information within the responsibility of the National Security Authority in Annex 16;
 - q) the list of classified information within the responsibility of the State Material Reserves Administration in Annex 17;
 - r) the list of classified information within the responsibility of the State Office for the Nuclear Safety in Annex 18;
 - s) the list of classified information within the responsibility of the Office of the Government of the Czech Republic in Annex 19;
 - t) the list of classified information within the responsibility of the Intelligence Services of the Czech Republic in Annex 20;
- (2) In evaluation, whether information under the item outlined in above mentioned Annexes from 1 to 20 to this Regulation is classified information, the decisive factor shall be whether its divulgence or misuse that may occur could result in damage to the interest of the Czech Republic or could be disadvantageous to the interest of the Czech Republic as described in S. 3 of the Act.

- (3) The information will be classified according to the Annex 1 to this Regulation by the originator, except as specified otherwise in Annexes 2 to 20 to this Regulation.
- (4) The list of classified information determines also the level or the range of security classifications of classified information.

Section 2

(1)The originator will assign such security classification to classified information within the range of security classification levels given in Annexes 1 to 20 to this Regulation, which shall correspond to the seriousness of possible damage or disadvantage to the interest of the Czech Republic in the case of its divulgence or misuse according to S. 3 of the Act.

(2)If the range of security classifications is determined in Annexes 1 to 20 to this Regulation for collective classified information, the procedure shall be in accordance with S. 1 par. 2 and in accordance with paragraph 1 also for piece of information involved in it.

Section 3

This Regulation comes into force on 1 January, 2006.

Prime Minister

Ing. Paroubek

The list of classified information – general part

Type of information	Security classification
1. Information from areas of the risk management, civil emergency planning and planning of the defence of the State.	R - S
2. Information and documents from the areas of the military infrastructure and mobilization of the Armed Forces of the Czech Republic.	R - S
3. The method of ensuring security of premises of the State body and of other important objects.	R - S
4. International negotiations, contracts, protocols, records and other information in the area of international co-operation, as Parties mutually agree.	R - TS
5. Information released by a foreign power and which was designated as classified by it in accordance with its applicable law in force.	R - TS
6. Information, which is kept secret within the North Atlantic Treaty organization and the European Union or under international agreements by which the Czech Republic is bound.	R - TS
7. Serious political, security and economic information from the area of international relations.	R - S
8. Information concerning preparation, use and result of use of intelligence means and device and supporting intelligence means and device ¹ .	R - C
9. Information concerning preparation of interception and recording of messages ² .	R - C
10. Methods and procedures while using intelligence means and device and supporting intelligence means and device.	R - C
11. Information concerning technical means and devices securing the use of intelligence means and device and supporting intelligence means and device, information concerning their research, development and production, including technical documentation, information concerning preparations for their use and financial means for their procurement and operation.	R - C
12. The way and methods of checks aimed at detection of unauthorised use of technical means intended for obtaining information.	R - TS
13. Information concerning performance of the courier service.	R - C
14. Results of use of intelligence means and device and supporting intelligence means and device	R - C

¹ E.g. S. 158(b) of the Rules of Criminal Procedure, S. 23(a) of the Act N. 283/1991, Police of the Czech Republic Act, as amended by the Act N. 265/2001 Coll., S. 33(b) of the Act N. 13/1993, Customs Act, as amended by Act N. 1/2002 Coll.

² E.g. **The list of classified information within the responsibility of
the Ministry of Transport**

Type of information	Security classification
1. Strategic concepts of the traffic economic development if these contain data concerning the defence and security of the State.	R - C
2. Lists of traffic constructions (objects) and related documentation, which are important for the defence and security of the State.	R
3. The course and parameters of the railway and road nets, which are important for the defence and security of the State, including plans for their technical protection and reconstruction, and related in-home regulations.	R
4. Data concerning special transportations and related in-home regulations.	R - C
5. The documentation concerning assumed identity documents.	R
6. The method of securing of driving licenses, certificates of licensing of a vehicle, and registration plates against forgery and fraudulent alteration.	R

Area of civil aviation

7. Details of setting detection capacity of equipment for detection of explosives, metal devices and radioactive material.	R - C
8. Results of tests and checks of equipment for detection of explosives, metal devices and radioactive material.	R - C
9. Details of actual performance and setting of automatic electronic access control systems to control access to defined airport security areas.	R - C
10. Details of exceptions to technical data and acceptance tests of equipment mentioned in paragraphs 7 to 9 above, including details of exceptions to measures concerning air traffic and airports.	R - C

**The list of classified information within the responsibility of
the Ministry of Finance**

Type of information	Security classification
1. Information concerning means and aids for verification of genuineness of documents and banknotes materials and information concerning its conducting.	R - C
2. Reports on the state of military material invoices.	R - C
3. Statements of situation in the field of government long-term credits – military material.	R - C
4. Government credits a) monthly specification of government credits for military material according to countries; b) quarterly specification concerning government credits for military material according to countries and credit agreements.	R - C R - C
5. Activities of customs authorities in crime detection and detection of perpetrators, procedures, results.	R - C
6. Measures of customs authorities, in agreement with customs authorities of other countries, aimed at control of illegally imported, exported or transited goods, which can endanger financial interests of the European Union, European Atomic Energy Community or of their member state, or aimed at control of goods, which are described in prohibition or limitation regulations, resulting in identification of persons involved in illegal business.	R - C
7. Information concerning technical means and materials for carrying out analysis and expertise, information concerning their research, development and production, including the technical documentation and information concerning training of customs officers in the area of their use, and information concerning financial means for their procurement and operation.	R - C
8. Data on designated customs authorities acting in a position of the Police body ³ .	R - C
9. Identification data on means of transport and registration plates of vehicles of designated customs authorities ³ .	R - C
10. Measures in the area of detection of customs and tax frauds.	R
11. Summary data on armament of members of the Customs Administration of the Czech Republic, number of weapons and ammunition.	R
12. Claims and summary of claims of the Czech Republic in the area of government credits for military material, procedures and methods of their settlement structured according to debtor nations, and materials relating to their solution.	R - S
13. Information concerning financing of Intelligence Services.	R - S

³ S. 3 par. 3 and S. 4 par. 3 of the Act N. 185/2004 Coll., to make provisions for the Customs Administration of the Czech Republic.

14. Special securing elements applied in the technology of banknotes, documents and securities.	R - C
15. Technical specifications of materials and intermediate products for the production of banknotes, documents and securities that contain security features.	R
16. Documentation of the comprehensive safeguarding system of a facility, where banknotes, documents and securities are produced, including mechanical barriers and CCTV.	R
17. System of records and protection in the process of production of banknotes, documents or securities.	R
18. Plans of location of safes for the storage of protected materials and products.	R
19. Information concerning securing of movements of defective prints of money and securities outside the building of the State Office for Tokens of Value Printing or the State Mint.	R
20. Information concerning organization and securing of movement of primary originals and matrices for the production of banknotes, documents and securities.	R
21. Conditions for the transport of materials and intermediate products for the production of banknotes and documents.	R
22. Activities of special departments of the Ministry of Finance in detection of crimes and their perpetrators, their procedures and results.	R - C
23. Unfinished cases of serious economic criminal activities.	R - S
24. The co-operation with investigative, prosecuting and adjudicating bodies in detection of serious economic criminal activities.	R - S

**The list of classified information within the responsibility of
the Ministry of Informatics**

Type of information	Security classification
1. Strategic concepts of economic development of electronic communications if these contain data concerning the defence and security of the State.	R - S
2. Aggregate materials and evaluation of the economic situation of electronic communications if these contain data concerning the defence and security of the State.	R - S
3. Specific information concerning the use of electronic communication networks, devices and post facilities for the needs of defence and security of the State, including information concerning safeguarding.	R - S
4. Specified part of documentation relating to the data on the operation, research and development of information systems.	R - S
5. Comprehensive operational data on secret radiotelephone net.	R
6. The documentation of electronic communications nets for the time of emergency. Information about serving lines leased and established for the needs of defence and security of the State, if this could reveal the purpose, transmission routes and exact place of termination of the line and location of state administration bodies.	R - S
7. Summary information concerning centrally made and processed applications of authorised bodies for provision of data from databases of operators and ensuring conditions for messages eavesdropping and recording.	R - S

**The list of classified information within the responsibility of
the Ministry of Culture**

Type of information	Security classification
1. Ensuring the protection of movable cultural heritage.	R
2. The list of facilities designated to protect the movable cultural heritage.	R

**The list of classified information within the responsibility of
the Ministry of Defence**

Type of information	Security classification
1. Special software and hardware (technical equipment).	R - C
2. Utilization of frequency bands, which are reserved for the Army of the Czech Republic, and rated frequencies.	R - S
3. The telephone directory of secret telecommunication systems.	R - C
4. Security identification access systems at access points to protected premises, areas and facilities.	R - S
5. The project documentation of secret construction of a military facility.	R - S
6. Financial and economy plans in the Army of the Czech Republic for the first period of the state of endangering the country and belligerency.	R
7. Planning of supervisory activities and summary information concerning results of supervisory activities of the Supervision Department of the Minister of Defence.	R - S
8. Summary information concerning the material and technical securing of mobilization of the Army of the Czech Republic and the state of endangering the country and belligerency.	R - S
9. The capacity, plans of location of ammunition dumps and arms stores.	R - C
10. Guidelines and grounds of securing of mobilization preparations of production organizations and of other natural and legal persons within military administration authorities.	R - C
11. Data from the area of defence and technical research and development.	R - S
12. Operational and combat documents for the defence of the Czech Republic against external endangering.	R - TS
13. The plan of development and activities of the Ministry of Defence.	R - C
14. Own information and documents concerning territories of foreign countries, which contain military material.	R - S
15. The organization and evaluation of operational readiness.	R - S
16. Mobilization of the Armed Forces of the Czech Republic and other emergency measures during the state of endangering the country and belligerency.	R - S
17. Plans of combat and mobilization readiness, mobilization plans, mobilization projects and plan of deployment of Armed Forces of the Czech Republic.	R - TS

18. Replenishment of the Armed Forces of the Czech Republic.	R - S
19. Records of reserve and material means necessary for the needs of the Armed Forces of the Czech Republic.	R - C
20. Mobilization preparation of forces and military administration authorities.	R - C
21. The organizational structure of the Ministry of Defence and the Armed Forces of the Czech Republic involving distinctive markings of establishment figures tables, and establishment tables (complement tables).	R - S
22. Responsibilities of military units, military installations and military rescue units during the war.	R - C
23. Tables of establishment figures for military units, military installations and military rescue units.	R
24. The set of tables of establishment figures for military units, military installations and military rescue units according to distinctive markings of establishment figures tables, set of peacetime and war establishment tables.	R
25. The real nature of military units, military installations and military rescue units and their deployment, covered by a legend name.	R - S
26. The overview of open names of war military units, military installations and military rescue units in connection with their deployment.	R - T
27. Strategic concepts and plans of development of the Ministry of Defence.	R - C
28. Conditions and prognosis of military strategic situation.	R
29. The long-term planning of development of weapon systems, armaments, missiles and ammunition, other material, immovable property and operational capabilities.	R
30. The plan of foreign defence co-operation and industrial co-operation in the area of armaments.	R
31. The defence planning and evaluation of operational readiness of the Army of the Czech Republic.	R - C
32. The plan of adoption and introduction of defence capability initiative.	R - S
33. Decisive documents for the management and development of geographical securing and for the geographical services of the Army of the Czech Republic.	R - C
34. Catalogues of geodetic points coordinates in the coordinate system S 1942/83 or WGS 84.	R
35. Transformation ratios or coordinates of identical points or other related data for calculation of these ratios for the conversion between geodetic systems S 1942/83 and WGS 84 and other coordinate systems being used with precision determined for catalogues of geodetic points coordinates of the Army of the Czech Republic.	R
36. Special maps, military-geographic and other documentation determined for the needs of defence of the State.	R - S
37. Coordinates of points (groups of points) concerning facilities (installations) (areas)	R - S

subject to special mode of protection in any geodetic system and projection.	
38. State of health of troops during the state of endangering the country and belligerency.	R
39. The defence standardization.	R
40. The documentation containing special knowledge resulting from discussions with military attaché and air attaché accredited at the Czech Republic.	R - C
41. The system and organization of protection of determined military facilities (installations), and documentation describing risks, technical and security measures aimed at elimination of these risks.	R - S
42. Traffic-administration records.	R
43. The military material ⁴ .	R - TS
44. The location, purpose, protection regime, project documentation and construction or planned and real use of specially determined facilities (installations) or posts of the Ministry of Defence.	R - S
45. The central register of persons, who are holders of personnel security clearance for access to classified information at the Ministry of Defence.	R
46. Actions of the Military Police bodies in detection of crimes and perpetrators of crimes, procedures of these bodies and results of the investigation.	R - S
47. The documentation concerning the preparation and assignment of the Army of the Czech Republic to and in operations outside the territory of the Czech Republic.	R - S

⁴ S. 2 par. 7 of the Act N. 219/1999 Coll., Armed Forces of the Czech Republic Act.

**The list of classified information within the responsibility of
the Ministry of Industry and Commerce**

Type of information	Security classification
1. Summary information concerning the research, development and production of explosives and information concerning entities working in this field.	R
2. The quarterly production and sales return of armament products involved in the current list Zbroj (MPO) 2-04.	R
3. The research and development of selected solutions and products of the arms industry.	R
4. Data on the protection and technical measures in the area of providing protection to important power facilities for the production, transfer and distribution of power.	R
5. Plans of complete communication and computer nets of the power engineering.	R
6. Information giving the total overview of the location and capacity of pipelines for the transfer of fuel and oil.	R
7. Principal commercially political conceptual and strategic plans of the Czech Republic.	R
8. Materials and information from negotiations concerning the co-operation in the area of foreign trade in the field of military material and other types of sensitive goods.	R - C
9. Summary of individual licences issued and comprehensive statistical or other data on exports and imports of the military material, if indicative of products, their amount, value and supply or customer countries, as follows: a) important military material; b) other military material.	R - C R
10. Data on the protection and on technical measures in the area of providing protection to important gas facilities.	R
11. Data on very high pressure gas transmission lines and important gas facilities in the objects integrated coordinate system.	R
12. Plans of and data from critical data transmission of the control and information gas system.	R

**The list of classified information within the responsibility of
the Ministry of Justice**

Type of information	Security classification
1. Information concerning the preparation of the decision of the President of the Republic to grant amnesty.	R - C
2. The decision on the swap of consignment according to the Criminal Procedure Code.	R - C
3. The decision on the entry clearance into the prison for the purposes of planting intelligence technology and operational technology into the prison.	R - C
4. The preparation, use and results of use of supporting intelligence means and device in prisons, including the procedure to approve its use.	R - C
5. The identity and image of witness with assured anonymity, the method of providing protection to him/her ⁵ and information relating to providing the special protection and assistance to the witness and to other persons in connection with criminal proceedings ⁶ .	R - C
6. Files or parts of files relevant to criminal proceedings, if classified information has been originated or become known during the criminal proceedings, including information and reports processed for this purpose.	R - TS
7. Information concerning the co-operation with police bodies and Intelligence Services of the Czech Republic in detection of serious crime activities, including the international co-operation.	R - C
8. The method of protection of important documents and stamps against the forgery and fraudulent alteration.	R - C

⁵ S. 55 par. 2 and S. 209 of the Rules of Criminal Procedure.

⁶ Act N. 137/2001 Coll., to make provisions for the special protection of a witness and other persons in connection with criminal proceedings and to alter the law N. 99/1963 Coll., Rules of Civile Procedure, as amended.
